

# Bikes

BRINGING HOPE TO CAMBODIA

## TRANSPORTATION FOR ALL AGES

Bikes are essential to every day life in villages and communities in the country of Cambodia. Children, teenagers, and adults ride bicycles to school, to the local market, to their jobs, and to their local church.

## MAKING DISCIPLES

The pastors and church members train the recipients of the bikes on the proper use and maintenance of their bike, but they are also able to teach them about knowing and following Jesus. It is a tangible gift that is used for Kingdom purposes.

## HOW CAN WE HELP?

A bike in many villages costs \$85, much more than many Cambodians make in their monthly salary. By giving to this project, you can help a child go to school, help a parent go to work to provide for their family, and you can help churches in villages across the country of Cambodia have more opportunities to reach out to families, share the hope and freedom found only in Jesus Christ, and make disciples.
